Total Races		37								

32 sailors have raced in at least one race. On 12/13 26 sailors participated in at least 1 race!!!

The scoring method was changed to the high point percentage system prior to the first race. A full description of the scoring method is below.

The daily average displayed in the daily results is simply the average of the sailed races for each competitor. Non-numeric scores such as DNF etc. are not counted. The daily average is not used to compute overall scores.

Finally a big thank you to everyone who performed Race Committee Duty. In addition to the the competitors shown below, several non-copmpetitors volunteered including, Pat Corr, Sarah Kramer, Brian Nelson's daughter, and Phil Cardelfi.

High Point Average System Scoring

Define 'N' to be the number of boats that compete in a particular race. Each boat finishing that race and not thereafter retiring or being disqualified will be scored as follows:

Finishing place Score - First N, Second N-1, Third N-2, Fourth N-3, and Each place thereafter Subtract 1 point

All other boats that compete in that race, including any that finish and thereafter retire or are disqualified, will score 0 points. Boats that do not compete in that race (DNC) will not be scored.

The series score for each boat will be a percentage calculated as follows: divide the sum of her race scores by the sum of the points she would have scored if she had placed first in every race in which she competed; multiply the result by 100. The qualified boat with the highest series score is the winner, and others are ranked accordingly.

Skippers shall participate in at least fifty (50) percent of the races in the series to qualify for series scoring.

Skippers shall receive participation credit for first six races that they serve on Race Committee.

For series where less than eight races are completed a skipper may only receive Race Committee credit for a maximum of fifty (50) Percent of the completed races.
